

State of California Perspectives Site Closeout

- Overview
- State Requirements/ARARs
- Institutional Controls
- California's Certification
- Reuse and the Selected Remedy
- Natural Resources Damages Claims
- Conclusions

"Only when all cleanup and monitoring activities are complete and DoD receives regulator approval can a site be officially closed out."

"If you think that fences, signs, educational programs (and deed restrictions) are institutional controls, then you should also be sure that shovels are removal actions."
